

LESIËM is a fusion of the past and present, a polyphonic journey through time through music worlds seducing the audience into a world of daydreams and awakening its curiosity. LESIËM knows no limits in the positive sense, knows neither boundaries of time or space nor religious or linguistic barriers. LESIËM is a book of seven seals waiting to be unlocked. LESIËM steals the audience away into the spiritual world of mystic-pop sounds.

The story of LESIËM began in 1999. A year full of secrets and pending answers. Answers to questions which arose through prophecies which had been made centuries before. Names such as Nostradamus were on everyone's lips. 1999 was a year which marked both the turn of a century and of a millenium, bringing home a feeling of temporality; and the birth of a new century was imminent, a century which had been prophesied as the century of spirituality. It was a year in which the sun was darkened briefly during broad daylight and the mystical could be felt like electricity. It was precisely the year of LESIËM.

There was no better place to create LESIËM than the legendary Hansa recording studios. Sven Meisel, who now records for the „Meisel Group of Companies“ in the third generation, produced the LESIËM project from the start for the Edition Intro Meisel GmbH. As a perfect foil for him, Alex Wende was assigned the executive production. His identification with the LESIËM project went so far that he composed and arranged nearly all titles himself. With his musical sensitivity, Alex Wende sets and has set the course. His experience in production guarantees an international standard which is confirmed by performing artists and producer colleagues such as Udo Jürgens and Jack White, to name a few.

The debut album „Mystic Spirit Voices“ kicked off together with the vocal ensemble Carl Maria von Weber. A choir whose patron is the great-grandson of Carl Maria von Weber, Baron Hans-Jürgen Carl Maria von Weber, a resident of Hamburg. The Carl Maria von Weber Choir has a 50 year-old tradition and references of guest performances at the Metropolitan Opera in New York, the Comical Opera in Berlin and performances together with the Erich-Weinert Ensemble in China.

The album „Mystic Spirit Voices“ was released at the beginning of 2000. Two weeks after publication it already ranked at position number 106, a waiting position for the Top 100 of the Media Control Charts. The project has now been published in over 70 countries and rose to number 7 on the US Billboard Charts in the second week of May 2002.

LESIËM was a guest on major German television shows such as „Showpalast“/ ZDF, „Wunschbox“ /

ARD, „Melodien für Millionen“ / ZDF, „Fernseh Gala“ / ARD, „Musik für Sie“ / ARD, „Ein bisschen Show muss sein“ / MDR, „Sportpalast“ zur IFA / ARD and many more.

Production of the second album „LESIËM Chapter 2“ started in September 2000. This „follow up“ took the same course as its predecessor „Mystic Spirit Voices“. It can now be said without hesitation that the LESIËM project has now established itself world-wide.

In February 2002, work started on the third album „LESIËM – TIMES“. TIMES is a fascinating concept album, a spectacular musical, based on human virtue and vice. Each of the songs has been composed especially for this album and deals with one of the virtues and vices of mankind and the influence on human incarnation within creation. As well as being a pleasure for the ears as a result of the very high standard of composition, LESIËM-TIMES also manages to achieve a further unimaginable dimension on the stage. Breathtaking costumes, a chorus of up to forty members, dancers and actors who enthral the public with their portrayal of the virtues and vices enveloping mankind. Alex Wende, musical director, composer & executive producer of the project, has managed to assemble a star-studded cast for the project. The internationally renowned CHORUS OF THE DEUTSCHE OPER BERLIN and its soloists have sung on the various tracks on the album and will also be involved with the live shows. A large part in the project is also played by Scottish pop singer MAGGIE REILLY. Reilly is one of the most popular folk/pop artists in the world and shot to superstardom with songs such as „Moonlight Shadow“ (1983 with Mike Oldfield) and „Everytime We Touch“ (1992).

The fascinating production convinced Sony Music to release the album TIMES in April 2003. Only one week after release TIMES entered the Top 100 Media Control Charts at position 72. The following week the album ranked at position number 58.

LESIËM presented TIMES in various major TV-shows such as „José Carreras Gala“/ ARD, „Superhitparade – Stargala zugunsten der Deutschen Welthungerhilfe“ / ZDF, „Musik für Sie“ / MDR and many more.

Animated by the success of all three albums LESIËM will release much more productions. You can be anxious for LESIËM.
